

## Safety Data Sheet

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1 Product identifiers

Product name : M33AG2Y-WH0 (Polyketone)

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Raw materials for plastic goods

#### 1.3 Details of the supplier of the safety data sheet

Company : Hyosung Chemical Corporation

Address : 65, Cheoyong-ro 487beon-gil, Nam-gu, Ulsan, Republic of Korea (44784)

Telephone : + 82 52 208 9920

Fax : + 82 52 208 9909

#### 1.4 Emergency telephone number

Emergency telephone number: + 82 52 208 9920

### 2. HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [EU-GHS / CLP]

Physical hazard : Not applicable

Health hazard : Not applicable

Environment hazard : Not applicable

#### 2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 [CLP]

Symbol / Signal word / Hazard statements / Precautionary statements : Not applicable

#### 2.3 Other hazards

NFPA Rating      Health : 0      Flammability : 1      Reactivity : 0      Water reactivity : 0

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substances

Ingredients	CAS No.	EINECS No.	Conc. %
1-Propene, polymer with carbon monoxide and ethene	88995-51-1 from *US NLM	No data available from **ECHA	> 80 %
S1(Business secret)	Business secret	Business secret	< 12.0 %

Glass Fiber	65997-17-3	266-046-0	< 7.0 %
Titanium dioxide	13463-67-7	236-675-5	< 1.0%

\* US NLM : U.S. National Library of Medicine, <http://chem.sis.nlm.nih.gov/chemidplus/>

\*\* ECHA : European chemical agency, <http://echa.europa.eu/>

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

#### **In case of eye contact**

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

#### **In case of skin contact**

Wash off with soap and plenty of water.

#### **If inhaled**

If breathed in, move person into fresh air.

If not breathing, give artificial respiration.

#### **If swallowed**

Never give anything by mouth to an unconscious person.

#### **Potential health effect**

Ingestion : May be harmful if swallowed.

### 4.2 Most important symptoms and effects, both acute and delayed

No data available

### 4.3 Indication of immediate medical attention and special treatment needed

No data available

## 5. FIRE-FIGHTING MEASURES

### 5.1 Extinguishing media

Water spray, alcohol-resistant foam, dry chemical, carbon dioxide.

### 5.2 Special hazards arising from the substance or mixture

No data available

### 5.3 Precautions for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

### 5.4 Further information

No data available

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Remove all sources of ignition.

Ensure adequate ventilation.

Avoid breathing dust.

Avoid contact with skin and eyes.

Wear protective gloves/protective clothing/eye protection/face protection.

#### 6.2 Environmental precautions

Do not let product get into the drainage.

#### 6.3 Methods and materials for containment and cleaning up

Pick up and arrange disposed materials without creating dust.

Keep in suitable, closed containers for disposal.

#### 6.4 Reference to other sections

For disposal see section 13.

## 7. HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

Remove all sources of ignition.

Provide appropriate exhaust ventilation at places where dust is formed.

Do not eat, drink or smoke when using this product.

Avoid breathing dust.

Avoid contact with skin and eyes.

Wear protective gloves/protective clothing/eye protection/face protection.

#### 7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed.

Avoid heat sources, and strong oxidizing agents.

#### 7.3 Specific end uses

No data available

## 8. EXPOSURE CONTROL/PERSONAL PROTECTION

#### 8.1 Control parameters Components with workplace control parameter

KOSHA :

Chemical Name	TWA	STEL
Titanium dioxide	10 mg/m <sup>3</sup>	-
Glass, oxide	5 mg/m <sup>3</sup>	-

ACGIH : No data available

#### 8.2 Exposure controls

Appropriate engineering controls : Ventilation

Respiratory protection : Dust mask

Hand protection : Protective gloves  
Eye protection : Protective goggles  
Skin and body protection : Working clothes

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

- a) Appearance : Solid (Not powder, Pellets) at 20 °C
- b) Odour : No data available
- c) Odour Threshold : No data available
- d) pH : 6.5 ~ 7.5 at 20 °C \* Sample : H<sub>2</sub>O = 1 : 5 (V/V)
- e) Melting/freezing point and melting range : > 130 °C
- f) Initial boiling point and boiling range : No data available
- g) Flash point : No flash occurred under 93 °C (Rapid equilibrium method – closed cup)
- h) Evaporation rate : No data available
- i) Flammability  
Burning time / rate : < 0.7 mm/s at 20 °C \* UN TDG test & criteria – Test N1
- j) Upper/lower flammability or explosive limits : No data available
- k) Vapour pressure : No data available
- l) Vapour density : No data available
- m) Relative density : 1.2 at 20 °C
- n) Water solubility : Insoluble
- o) Partition coefficient (n-octanol/water) : No data available
- p) Autoignition temperature : No spontaneous combustion under 400 °C
- q) Decomposition temperature : No data available
- r) Viscosity : No data available
- s) Explosive properties : No self-reaction hazard \* UN TDG test & criteria – Test E3
- t) Oxidizing properties : No oxidizing hazard \* UN TDG test & criteria – Test O1

### 9.2 Other safety information : No data available

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity : No data available

### 10.2 Chemical stability

Stable under general condition

### 10.3 Possibility of hazardous reactions : No data available

### 10.4 Conditions to avoid

Avoid breathing dust.

### 10.5 Incompatible materials

Strong oxidizing agents

## 10.6 Hazardous decomposition products

Carbon oxides

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

Acute toxicity

Oral	rat	LD50	: No data available * from US NLM / ECHA
Skin	rabbit	LD50	: No data available
Inhalation	rat	LC50 (dust, 4 h)	: No data available

Skin irritation : No data available

Eye irritation : No data available

Respiratory sensitization : No data available

Skin sensitization : No data available

Germ cell mutagenicity : No data available

Carcinogenicity :

- Powder 100% of Titanium dioxide

: In lifetime inhalation studies rats were exposed for 2 years to respectively 10, 50 and 250 mg/m<sup>3</sup> of respirable TiO<sub>2</sub>. Slight lung fibrosis was observed at 50 and 250 mg/m<sup>3</sup> levels. Microscopic lung tumours were also observed 13 Percent of the rats exposed to 250mg/m<sup>3</sup>, an exposure level that caused lung overloading and impairment of rat lungs clearance mechanisms. In further studies, these tumours were found to occur only under particle overload conditions in a uniquely sensitive species, the rat, and have little or no relevance for humans. The pulmonary inflammatory response to TiO<sub>2</sub> particles exposure was also found to be much more severe in rats than in other rodent species.

In February 2006, IARC has re-evaluated Titanium dioxide as pertaining to Group 2B' "possibly carcinogenic to humans", based upon inadequate evidence in humans and sufficient evidence in experimental animals for the carcinogenicity of titanium dioxide. IARC evaluation guidelines consider the generation of tumours, in 2 different studies within the same animal species, to be adequate criteria for an assessment of sufficient evidence.

The conclusions of several epidemiology studies on more than 20000 TiO<sub>2</sub> industry workers in Europe and the USA did not suggest a carcinogenic effect of TiO<sub>2</sub> dust on the human lung. Mortality from other chronic diseases, including other respiratory diseases, was also not associated with exposure to TiO<sub>2</sub> dust.

Based upon all available study results, Dupont(Chemours) scientists conclude that titanium dioxide will not cause lung cancer or chronic respiratory diseases in humans at concentrations experienced in the workplace. (Dupont MSDS reference) So, Titanium dioxide is less than 1.0% Pellet (Chip) form of this product conclude that there is no harm to humans.

Reproductive toxicity : No data available

Specific target organ toxicity – single exposure (GHS) : \* from US NLM / ECHA

– Powder Titanium dioxide in 100% condition may cause respiratory irritation. However, there is no data on the toxicity of the pellet(Chip) type containing less than 1.0% of titanium dioxide.

Specific target organ toxicity – repeated exposure (GHS) : \* from US NLM / ECHA

– Powder Titanium dioxide when 100% state through prolonged or repeated exposure may cause damage to the body (respiratory system). However, there is no data on the toxicity of the pellet(Chip) type containing less than 0.5% of titanium dioxide.

Aspiration hazard : No data available

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity

Fish LC50 : No data available \* from US NLM / ECHA

Crustacean EC50 : No data available

Algae EC50 : No data available

12.2 Persistence and degradability : No data available

12.3 Bioaccumulative potential : No data available

12.4 Mobility in soil : No data available

12.5 Results of PBT and vPvB assessment : No data available

12.6 Other adverse effects : No data available

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

Observe all environmental regulations.

## 14. TRANSPORT INFORMATION

14.1 UN-Number : Not applicable

14.2 UN proper shipping name

IATA : Not dangerous goods

ADR / RID : Not dangerous goods

IMDG : Not dangerous goods

14.3 Transport hazard class(es) : Not applicable

14.4 Packaging group : Not applicable

14.5 Environmental hazards

IATA : Not applicable      ADR/RID : Not applicable      IMDG Marine pollutant : Not applicable

14.6 Special precautions for users

Fire EmS Guide : F-E (Recommendation)

## 15. REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Korea Industrial Safety and Health Act

GHS : Not applicable

Material(s) applied by workplace exposure limits : Not applicable

Korea Hazardous Materials Safety Control Act : Not hazardous material

Korea Chemicals Control Act : Not toxic chemical

Korea Persistent Organic Pollutants Control Act : Not applicable

OSHA Hazard : Not applicable

### 15.2 Chemical Safety Assessment : Not applicable

## 16. OTHER INFORMATION

Issued Date : 2017. 06. 27.

Revision No. : 2

Revision Date : 2023. 07. 10

This SDS' composition/information on ingredient(s) and recommended use are provided by the mentioned company in this SDS' section 1.

This SDS is composed in line with Korea Occupational Safety and Health Act (KOSHA) Article 41, to protect the health of the employees, and for documentation.

This SDS is composed with reference to criteria provided by KOSHA.
